TERMS OF SALE

- 1) A 10% buyers charge will be added to the hammer price of each lot purchased.
- 2) All bids are per lot as numbered in this catalog.
- 3) We reserve the right to withdraw any lot prior to sale.
- 4) All successful bidders shall be billed for postage, handling and insurance.
- 5) NASCA reserves the right to reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.
- 6) A NASCA auction bidder expressly waves any claim or right to an accounting, damages or compensation arising out of NASCA's failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.
- 7) United States coins and currency will not, in conformity with law, be opened at less than the face value.
- 8) No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.
- 9) In the case of a tie between a mail bidder on the book and the floor, the mail bidder shall take precedence.
- 10) All bids must be in whole dollar amounts; this includes percentage increases.
- 11) Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.
- 12) No minors may participate in our sales. Agents bidding on behalf of others will be held liable if their principals fail to make payment.
- 13) Payment for purchases is to be made in cash upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1½% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their bids in advance.
- 14) Title does not pass until payment in full is received. NASCA reserves the right to await clearance of any check before making delivery.
- 15) If a collection agency attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by NASCA shall be borne by the defendant. The signer of a NASCA bid sheet or participant in the auction concedes the jurisdiction of the courts of New York State or the U.S. in New York City as NASCA alone shall elect. The participant in a NASCA auction also assumes both corporate and personal liability for unpaid auction bills.
- 16) New York State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.
- 17) NASCA may reopen the bidding on a lot under the following circumstances: 1) NASCA has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before the bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the Auctioneer.
- 18) In the event of any dispute, the decision of the auctioneer is final.

GUARANTEES AND RIGHTS OF RECOVERY

- 19) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.
- 20) Persons placing bids are responsible for meeting the maximum amounts represented on their bid sheets. NASCA reserves the right to reject frivolous complaints and to take appropriate actions against such bidders under paragraphs 5 and 15 above.
- 21) All material in this catalog is guaranteed to be genuine unless otherwise described.
- 22) No lots may be returned by floor bidders except for non-authenticity.
- 23) Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or forty-five days from the auction's last day, whichever comes first. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it.
- 24) In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (45 days after the sale), notify NASCA of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.
- 25) In the event of litigation the plaintiff shall pay NASCA's legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the prime rate at Morgan Guaranty Trust Company from the date of actual disbursement.
- 26) The same protections applicable here to NASCA apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.
- 27) NASCA assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.
- 28) All accounts are payable to NASCA in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice. No payments will be received by NASCA in the form of credit cards for auction sales, catalogs or other monies due to NASCA.
- 29) The placing of a bid shall constitute **full acceptance of the foregoing terms and conditions of sale.**

CONDITION TERMINOLOGY FOR PAPER

- Gem Unc.** (Gem Uncirculated) - The perfect uncirculated item, clean, bright, vivid, crisp (where paper permits), well-margined, unimprovable, without folds.
- Choice Unc.** (Choice Uncirculated) - A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the "Gem" class.
- Unc.** (Uncirculated) - As made or issued, but margins may be poor, the item lightly aged, with border trimming.
- Choice AU** (Choice Almost Uncirculated) - Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.
- AU** (Almost Uncirculated) - There is one fold, a teller counting smudge or counting wrinkling present.
- EF** (Extremely Fine) - An item which may, at first glance, look uncirculated but which has several petty folds, or a hard crease down the center perhaps with corner folds. Crisp, bright, vivid and pleasing, the paper as made, permitting.
- VF** (Very Fine) - Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.
- F** (Fine) - The last grade of an item in which the paper still has body. The folds are numerous and the design is beginning to show signs of soiling wear.
- VG** (Very Good) - A well circulated item, complete, unimpaired except for petty edge splits, pin holes, some surface splitting along heavy folds and soiling.
- Good** (Good) - An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.
- Fair** - Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.
- Poor** - A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.
- Abt** (before a grade) - A shade below the grade it preceeds.
- Plus or +** (following a grade) - A shade better than the grade.
- VF-EF** (hyphen between grades) - The grade is about halfway between the two grades shown.
- VF/Good** (slash between two grades) - Face and back are two different grades. The grade preceeding the slash is for the face. The grade following is for the back.

Condition Terminology for Coins

Circulated coins are graded according to the ANA guidelines. Numerical designations for uncirculated coins are according to generally accepted industry standards.

 This company was established in 1863 with stock valued at \$1000 and began operations prior to December 1863 when it was chartered by South Carolina with a capital of \$2 million made up of 1000 shares valued at \$2,000 each in Confederate money (then worth about 5¢ apiece in gold for \$100 gold per share). The firm operated two ships, the "Margaret and Jessie" and the "Syren". The "Margaret and Jessie" was lost in 1863 and the Syren is reported to have made about 12 runs from 1863-5. Shares advanced to \$7,075 per share in Confederate money (\$50 CSA = \$1 gold), while dividends were paid in February 1864 (amount unknown) September 1864 (\$500 CSA) and January 1865 when \$1500 was divided. At the end of the war, 1000 bales owned by the firm were seized in Charleston and another 380 bales at Wilmington. The "Syren" was also apparently captured and £30,000 was on hand in Britain. This was used to redeem the shares at \$100 in gold each. An extraordinary souvenir of the Civil War

EARLY TURNPIKES

- 111 RANCOCUS TOLL-BRIDGE 1793. One share. #83. Issued to John Brock. An illustration of the bridge appears on the embossed company seal. Assigned to Elias Boudinot (an early Director of the U.S. Mint) on the verso. (Photo) (\$475)
The Company's first statement reveals that a total of 100 shares were issued at £30 per share. The Rancocus River is located in Burlington County, New Jersey. A Xerox copy of the Company's first two financial statements is included.
- 112 THIRD MASSACHUSETTS TURNPIKE 1797. One share #695. Signed by Caleb Strong as president. (Photo) (\$400-Up)
Incorporated on March 9, 1797, the Third Massachusetts Turnpike extended 32 miles from Roberts Hill in Northampton to Pittsfield and on to the New York border. Built at a cost of \$29,989.34, net earnings averaged about \$600 per year from 1801 through 1814 when the corporate name was changed to the Worthington Turnpike Corporation.
Caleb Strong (1745-1819) was a lawyer and Federalist statesman. He represented Massachusetts in the Federal Convention of 1789 and served as senator through 1793. Strong was governor of Massachusetts for seven consecutive terms through 1807. He ran again in 1812, defeating Governor Gerry. Strong's opposition to the war and his belief in state's rights led him to refuse a federal request for militia. He complied only when he felt that a British invasion was imminent. Throughout the War of 1812 he led the State of Massachusetts, remaining in the Union, but giving little in the way of cooperation. The embossed corporate seal shows a ship.

- 113 PHILADELPHIA & LANCASTER TURNPIKE 1795. One share #337. A covered wagon approaches the Turnpike gate which is also illustrated on the embossed company seal. Printed on parchment. This is the oldest known vignetted U.S. stock certificate. Signed by William Bingham as president. (Photo) (\$350-Up)

In 1892, William Bingham (1752-1804) became the first president of the Philadelphia and Lancaster Turnpike, "the earliest, and for years, the best turnpike in the United States". He was a founder and director of the Bank of North America (chartered 1781), and one of the wealthiest men in America. Bingham owned over two million acres of timberland, vast oil rich properties and enormous real estate holdings. He was the founder of the town of Binghamton in upstate New York.

Crisp and bright with only two vertical folds and the usual yellowing. Surely one of the finest known examples of this early and desirable stock certificate.

- 114 NEWARK TURNPIKE (NJ) 1840. Transfer certificate for 8 shares #85. Signed by Elias E. Boudinot representing the estate of Elisha Boudinot. (\$250-Up)

Probably the plank road successor to the original primitive corduroy road that ran from Newark to the Hudson River as the form was printed in the 1820's.

Elias E. Boudinot was the nephew of Elias Boudinot, Revolutionary statesman and successor to David Rittenhouse as Director of the Mint.

RAILROADS

- 115 CAMDEN & AMBOY RAIL ROAD & TRANSPORTATION (NJ) 1832. Subscription form #279 for 20 shares in the Delaware and Raritan Canal, and Camden & Amboy Rail Road. Signed by E.A. Stevens as treasurer. (Photo) (\$250-Up)

The Camden and Amboy Rail Road and Transportation Company, and the Delaware and Raritan Canal were both chartered in 1830. A year later, a consolidation of the two resulted in the Camden and Amboy Rail Road and Transportation Company. The 14 mile section of railroad between Bordentown and Hightstown was opened a month before this certificate was issued. This was New Jersey's first railroad, and one of the earliest lines in America.

E.A. Stevens (1795-1868) was the son of John Stevens, who developed the first successful sea-going steamboat, the *Phoenix*. Edwin shared his father's interest in engineering and transportation. His efficient management of the Camden and Amboy resulted in thirty five years of uninterrupted dividends to the stock holders.

- 116 BOSTON AND PROVIDENCE RAIL ROAD AND TRANSPORTATION 1834. First installment subscription form #50 for 62 shs. (\$250-Up)

Chartered in 1831, the road was completed four years later. The shares, which sold for \$2, were sold by subscription (an installment plan). This form was issued for the first \$124 payment.

There is a light fingerprint stain in the upper right corner of the certificate.

- 120 **WILMINGTON & MANCHESTER RR (NC & SC) 1866.** \$1000 bond, Cu, rd. Signed by **Morris K. Jesup**, trustee. Henry Seibert & Bros. #646 of a total of 700 issued. **(100-Up)**

Before the War Between the States, this was considered one of the more successful southern railroads. The war brought ruin and almost total destruction. This loan must have been a stop-gap effort to restore the line because a few years after it was issued the road was sold by order of the courts. There is an 1870 insolvency form for interest paid on the back. The Wilmington, Columbia and Augusta Railroad was its successor.

Morris K. Jesup (1830-1908) was a major benefactor of the American Museum of History and several Arctic expeditions.

The green embossed seal is split, not affecting the certificate.

In 1888 a Federal Committee on Manufactures investigating the Standard Oil Trust concluded the following: "...the Standard Oil Trust agreement was a slippery device for evading responsibility." Although they felt certain that refined oil prices were being fixed, the committee was powerless to pursue punitive actions against the trustees who swore "they had nothing to do with the business operations of the separate concerns. They simply held the stock of the various corporations, exercised their rights as stockholders, received and distributed dividends." The idea that the trustees (John D. Rockefeller, William Rockefeller, J.D. Archbold, Henry H. Rogers, Charles Pratt, H.M. Flagler, Benjamin Brewster, W.H. Tilford and O.B. Jennings) did nothing but cut coupons and make deposits seemed preposterous to the frustrated, but powerless committee. Finally, in 1892, the Trust was ordered to liquidate.

The signatures are neatly pen and razor cancelled. There are several pinholes and a small "bald" spot at right center where the surface of the paper has been lightly scraped.

A bit nicer than the preceeding lot, with just a few pinholes. The ink cancellations are in red.

- 147 **UNCAS NATIONAL BANK OF NORWICH (CT)** 1928. A bound book numbered 1-500. (475) (\$300-500)

The bank was chartered in 1865. In 1928 it consolidated with the Merchants National Bank of Norwich. Under charter #1187 it issued over \$2,000,000 in currency of which about \$13,506 was still outstanding in 1935.

There are a few certificates missing from the book, and several are taped to the stubs.

- 148 **UNCAS NATIONAL BANK:** See previous lot. This is a second book of certificates containing about 40 issued and cancelled, and 450 unissued, beautifully crisp and nice. (375) (\$350-Up)

- 149 **CANADIAN NORTH PACIFIC FISHERIES (CAN)** 1912. 50 shs, gr, Waterlow & Sons. A sailor, harpoon in hand, contemplates a partially beached whale. A small whaling ship steams in the distance. (90) (\$150-Up)

The company owned a whaling fleet and processing plants on Vancouver Island, British Columbia.

- 150 **MARYLAND STEAM-BOAT (MD)** 1819. One share, #390. The earliest American steamboat certificate known to us. (Photo) (500) (\$200-Up)

Typeset form with a wax seal covered by a paper square. This historic example is split along a vertical fold. A rare opportunity for the advanced steamboat collector. This firm probably operated from Baltimore or Annapolis to the Eastern Shore, most likely at Love Point.

- 151 **TERRITORY OF IOWA** 1877. \$1000 bond, rd, #9. Ezra A. Cok & Co., Chicago. Territorial arms. Large \$500 on an oval shaped die of radiating wavy lines. **The only one we have ever seen.** Split along a vertical center fold and repaired with archive tape, but quite attractive. A must for Territorial collectors. (Photo) (625) (\$375-Up)

- 154 **MISSOURI, KANSAS & TEXAS RR** 1891. 100 shs, gr, ABN. Train. Signed by **William Rockefeller** on the verso. (Photo) (650) (\$500-Up)

William Rockefeller (1841-1922), along with his brother, John D. Rockefeller, helped build Standard Oil into the most powerful oil company in the world. It was William who on his own got the family into the Chase Bank (Chase Manhattan) and became a power in the money markets, ultimately challenging Morgan in the Northern Pacific War in 1901.

- 155 **GRAVES-END AND CONEY-ISLAND BRIDGE & ROAD (NY)** 1824. 8 1/4" x 14", completely split along one of three horizontal folds, otherwise quite presentable. With an embossed red wax seal covered with star-shaped paper. (375) (\$150-Up)

By the beginning of the 20th century, Coney Island was a world famous amusement and recreational area, but in 1824 it consisted of farming and grazing land, isolated from the mainland by a tidal creek. Supervisor John Terhune, who signed this certificate as secretary, proposed that the town build a shell road across the creek. The motion failed. A private company was formed and three hundred shares were issued at \$20 each. By 1829 the road was completed and Coney Island was well on its way to prosperity.

- 156 **BANK OF THE UNITED STATES OF AMERICA** 1833. 10 shs, #20297, FDU. Liberty, eagle & shield, ship. Counterfoil left border. **(150-Up)**

230

The Bank of the United States was a quasi-public institution, partially owned by the U.S. government. Under Nicholas Biddle the Bank helped maintain a stable currency and discouraged inflation. The farmers, workingmen and entrepreneurs became disenchanted with the Bank, blaming it for every downturn in the economy. President Andrew Jackson was vigorously opposed to the bank's policies and he led the fight to refuse to renew the Bank's federal charter which expired in 1836. An extraordinary certificate issued exclusively for the New York Branch and signed by Isaac Lawrence (President) and its cashier, Biddle signed certificates for the Philadelphia Office turn up reasonably often: branch shares are most unusual.

Francis Lynde Stetson (1846-1920) was J.P. Morgan's counsel. Stetson handled the legal details in creating the United States Steel Corporation and in anti-trust proceedings. He was also politically active. As an ardent supporter of Samuel Tilden, he helped rid New York of the infamous Tweed Ring.

- 160 **WESTERN UNION TELEGRAPH (NY)** 1864. 135 shs, globe, RN. Signed as president by **Hiram Sibley**. A rare variety. **(Photo)** **(350-Up)**

650
8

In 1851, Hiram Sibley (1807-1888) bought the rights to an invention known as the House printing telegraph. Sibley organized the New York and Mississippi Valley Printing Telegraph Company. Four years later he formed an association with Ezra Cornell, leading to the incorporation of Western Union Telegraph. Sibley held the position of president during the next ten years. When his co-directors opposed him on the issue of building a transcontinental telegraph line, Sibley undertook the project on his own, completing the project successfully and merging the transcontinental line into Western Union. He retired from the company in 1869, devoting the rest of his life to agricultural pursuits and philanthropy. Sibley and Ezra Cornell were among the original incorporators of Cornell College.

This certificate was issued to finance the construction of a cable across the Behring (now Bering) Strait, through Siberia and on into Europe. Portions were completed through Siberia and Alaska when word came that Cyrus Field had succeeded in establishing a telegraphic link to Europe via the Atlantic Cable. The Western Union project was abandoned.

EARLY FRENCH STATE LOANS

- 161 **FRENCH GOVERNMENT 1699** 200 livres rente (bond) Number 968, Shakespeare #994 - Q1, rarity 3. **(Photo)** **(165-Up)**

170

This document was partially printed and hand written on vellum. It is signed by Pierre Gruyn, Adviser to the King and Guardian of the Treasury. Missing a small piece in the lower right hand corner, otherwise in very good condition.

- 162 **FRENCH GOVERNMENT 1795**. 6000 Francs Loan, Number 39. **(Photo)** **(150-Up)**

65

Immediately after the French Revolution, the new government needed to address the problem of finances. In order to refill the state's coffers, the loan of the 19 December 1795, or the 4th year of the Republican calendar was issued. It was known as the "emprunt force" and was imposed on a quarter of the taxpayers in each department. Issued in the then French city of Antwerp. 8 of the original 10 coupons remain. VF.

17TH CENTURY ENGLISH RECEIPT

- 163 **TALLEY RECEIPT 1617**. £80 **(Photo)** **(150-Up)**

120
Pi

Unusual parchment talley written in old English script measuring 13 x 1 1/2 inches. In all probability, the owner of the original wooden talley sold part of his interest in it to other persons in order to raise money. This is a receipt given to such a person. Only three wooden talleys are known today, the rest having been burned in the fire which destroyed the Houses of Parliament in the 1830's. Apart from some minor green discoloration and one small hole in the center, the document is in good condition.

TRADING IN 18TH CENTURY EUROPE

- 164 **AUSTRIAN DUTCH EAST INDIA CO.** 1735. Receipt for 120 guilders payable in Antwerp. **(Photo)** **(100 - Up)**

30

This company was established after Belgium became part of the Austrian Netherlands in 1713. The vignette shows the coat of arms of the Hapsburgs combined with the lion of the province, the pillars of Hercules (symbol of trade to the East), and the crossed, sprouting sticks of the company. The condition of the document is perfect except for two tiny holes in the centre.

- 165 **EMPEROR'S EAST INDIA COMPANY** 1723. RECEIPT for 250 guilders. **(Photo)** **(300 - Up)**

150

This is a fully issued receipt for one share of stock in the company. The Hapsburg coat of arms appears in the top left hand corner in addition to a line of decorative scroll work down the right hand side. Printed on heavy paper, this is one of the earliest documents connected with the Emperor's East India Company we have seen. The superb condition of this piece makes it very desirable.

- 165A **DUTCH EAST INDIA COMPANY** 1785. 2 1/2% surcharge lottery ticket. All Dutch East India Company documents are scarce. **(Photo)** **(250-Up)**

- 166 **COMPAGNIE DES INDES** 1793. DRAFT FOR £510 to Messieurs James Cazenove and Company in London **(Photo)** **(250-Up)**

250

This historic document belongs to the company which was organized by Louis XVI and dissolved in 1794 by the Constituent Assembly. The origins of this well-known company go back to the beginning of the 18th century when it was founded by combining the Compagnie d'Occident owned by the legendary John Law with the much older Compagnie des Indes Orientales. It was at the centre of the huge Mississippi bubble which led to John Law's downfall. This 1793 document is entirely handwritten on both sides and has red remnants of a seal at the top left hand corner. Apart from a couple of slight tears near the edges, the condition is excellent. The combination on one document of the prestigious Cazenove Company with the historic Compagnie des Indes gives this piece particular importance.

ZOO OF BRUSSELS

- 167 **SOCIETE ROYALE DE ZOOLOGIE D'HORTICULTURE ET D'ACREMENT.** Issued but not dated. (Photo) (\$500-Up)

525 One of the most beautiful of the 19th century European certificates, this lithograph depicts the entrance gate to the zoo with exotic wild animals around it. The warm beige tones add to the decorative aspect. The certificate is issued for 1 share and is signed by several officials of the Societe Royale. While the date is not included, it is always assumed that this certificate dates from 1851 when the Zoo was founded in Brussels by King Leopold. In 1878 the Zoo was officially taken over by the City of Brussels. The stockholders were given bonds of the City of Brussels as compensation. This is indicated by a note on the verso of the certificate. The condition on the whole is excellent except for a tiny hole in the centre caused by repeated folding.

PENN CENTRAL AND RELATED CERTIFICATES

- 125 250 **NEW YORK CENTRAL RR (NY) 1854. 10 shs.** State arms. Engraved by John R. Gavit, Albany. Signed by **Erastus Corning** as president. **(\$110-Up)**

The New York Central was organized in 1853 as a consolidation of the Albany & Schenectady; Schenectady & Troy; Utica & Schenectady; Syracuse & Utica; Rochester & Syracuse; Buffalo & Lockport; Mohawk Valley; Rochester, Lockport and Niagara Falls, and Buffalo and Rochester Railroads.

Erastus Corning, 1794-1872, began his career as an iron manufacturer in Albany. Realizing the potential of railroads, he became involved in the Utica & Schenectady, serving as the line's first and only president from 1833 until it was consolidated into the New York Central twenty years later. At that time he was elected first president of the New York Central, a post he held until his resignation in 1864. Corning was elected Mayor of Albany four times, state senator from 1842-1846, and Congressman, 1857-59 and 1861-1863. His real estate ventures were responsible for creation of the town named after him, Corning, New York.

Minor tears, lower left; a few pinholes.

- 70 251 **NEW YORK CENTRAL RR (NY) Undated (1866). Unissued share certificate signed by Henry Keep. Eagle & shield. 5.5cm medal depicting the New York state arms with the names of the component railroads of the New York Central. ABN.**

(\$100-Up)

Henry Keep, 1818-1869, began his career in transportation as a teamster on the Erie Canal. He invested his early earnings in depreciated currency during the financial crisis and profited handsomely. He did then bought Canadian currency at a discount and exchanged them in Canada at a nice profit. These early experiences led him to become one of the boldest operators in railroad stocks. Nicknamed "William the Silent", he played his cards close to his vest.

Though undated, this certificate was signed by Keep in 1866. He was elected president of the New York Central in the face of stiff opposition. Six months later, Commodore Vanderbilt was in control of the railroad and Keep was forced out. He died three years later, leaving an estate of four million dollars, quite an accomplishment considering his humble beginnings.

An Entire Railroad Was Purchased With This Certificate!

- 560 251A **PENNSYLVANIA COMPANY 1873. 60,000 shs, gr.** Issued to the Union Railroad and Transportation Company. Signed by **Thomas A. Scott** as president of the Pennsylvania Company and, on the verso, by **William Thaw** as president of the Union Railroad and Transportation Company. One of only 7 issued. **(\$250-Up)**

In 1872, the Pennsylvania Railroad Company found itself in competition with the Union Railroad and Transportation Company whose cars provided rapid freight service between the East and West. Negotiations began and an agreement was reached whereby the property, equipment, franchise rights of the Union Railroad and Transportation Company were purchased for the sum of \$3,000,000 worth of Pennsylvania Company Common Stock at par (\$50) per share. **Thus this is the certificate issued to purchase the entire Union Railroad and Transportation Company.**

Thomas A. Scott was the fourth president of the Pennsylvania Railroad. During the Civil War he was virtually in charge of transporting Union troops and ammunition. His private secretary was a youth who would become one of the world's greatest financiers, Andrew Carnegie.

William Thaw, 1818-1889, began his financial career on horseback, riding through the Ohio Valley making collections for the Bank of the United States. In 1840 he went into partnership with his brother-in-law, Thomas S. Clarke. Clarke & Thaw took over the Pennsylvania and Ohio Canal Line. In addition, they owned interests in 150 steamboats. Realizing the potential of the railroads to destroy the canal and steamboat transportation business they began to sell their "liquid" assets and became involved in the railroad business. They formed the firm of Clarke & Company and became freight agents for the Pennsylvania Railroad. Thaw was largely responsible for extending the line into St. Louis. He devised the first workable system of through shipping. Taking charge of the Union Line, he ran it from 1864 to 1873 when it was sold to the Pennsylvania Company for which he served as a director from 1881-1889. Thaw left a fortune estimated at between eight and twelve million dollars. Before he died he gave large sums to the Western University of Pennsylvania and other educational and charitable organizations. His wife was Mary Copeley, the philanthropist, his son was Harry K. Thaw, the murderer of Stanford White, the architect, in 1906.

- 59 252 **BATTLE CREEK & STURGIS RWY (MI) 1905. 5 shs. #26.** Issued to the Michigan Central Railroad. ☐ 1907. **440 shs. #30. (\$75-Up)**

The last is heavily punched cancelled. [2]

- 160 253 **MICHIGAN CENTRAL RR (MI) 1881. \$5,000 bond, br, ABN.** Locomotive, farmer, sheep, maiden, wheat. #254. Signed by **C. Vanderbilt.** **(\$170-Up)**

Cornelius Vanderbilt (1843-1899) was the son of William Henry Vanderbilt and grandson of "Commodore" Vanderbilt, founder of the family fortune.

A similar example brought \$150 plus 10% in our Strasburg Sale, February, 1987.

- 110 254 **CANADA SOUTHERN RWY (CANADA) 188—. \$1,000 bond, gr, ABN. Steam locomotive. Flagman. #204. Unissued but partially prepared. Signed by C. Vanderbilt as vice president (see previous lot). (\$170-Up)**

The main line of the Canada Southern ran from International Bridge to Amherstburg, Ontario. It was chartered in Canada in 1868 and completed in 1873. Five years later the company defaulted on bond interest and was reorganized. The interest on the reorganization bonds was guaranteed by the New York Central and Hudson River Railroad.

A tiny portion of the upper left corner tip is off and the lower left border is trimmed a bit; neither into the design. Otherwise quite presentable.

- 80 255 **ALBANY & SCHENECTADY RR (NY) 1848. \$500 bond, Cs. #41. Small train. (\$75-Up)**

Originally chartered as the Mohawk and Hudson Railroad in 1826, the first in New York. The line used inclined planes to overcome steep ascents. In 1853 it was consolidated into the New York Central.

On somewhat brittle paper. Split in a few spots along the upper border. In 1869 J.P. Morgan cut his teeth in the railroad business by defeating Jim Fisk and Jay Gould for control of the road, in a pitched battle in which hundreds of ruffians were hired to fight for either side.

- 360 256 **HARRISBURG, PORTSMOUTH, MOUNT HOLLY & LANCASTER RR (PA) 1846. 17 shs.** One of the most elaborately engraved certificates we have ever seen. 10 separate vignettes. This example was lot 1172 in our Memphis 1986 sale. Pictured on the cover of the catalogue, it realized \$250. **(Photo) (\$250-Up)**

The issuing clerk has written "This certificate should have been issued for 18 shares insted (sic) of 17". No properly issued examples are known. Of the thirty discovered, twelve were badly mutilated and two were very poor. This is the finest known example.

- 340 257 **CLEVELAND & MARIETTA RR (OH) 1880's-1890's. Shares, br, ABN. Train at the station, horse and buggy all in a circular vignette. Several with revenue stamps. (\$350-Up)**

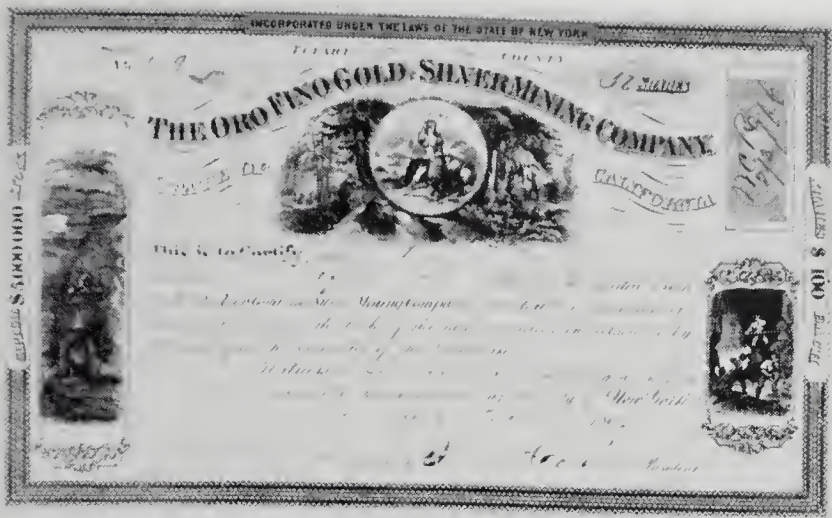

Derived from the Marietta, Pittsburg and Cleveland, the 97 mile long road ran from Canal Dover to Marietta, passing through Ohio's rich Cambridge coal field. Many of the certificates are made out to the Pennsylvania Company which purchased a controlling interest in 1893. [58]

- 110 258 **CINCINNATI & RICHMOND RR (OH) 1888. A book of shares, #1-#9. Certificate #1 for 6,292 share issued to the Pennsylvania Company. The remaining certificates for 1 share each. The remaining stubs are all blank, indicating that the unissued examples were removed and possibly destroyed. (\$150-Up)**

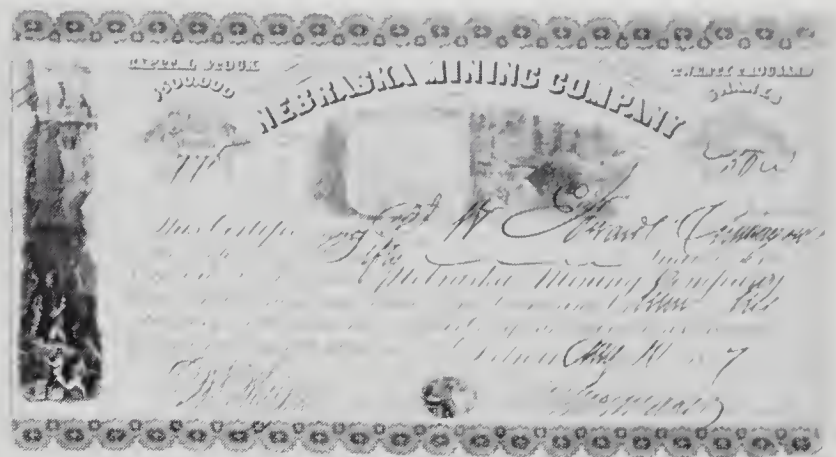

This company was one of the components of the Pittsburgh, Cincinnati, Chicago and St. Louis Railroad [9]

- 90 259 **CHICAGO, KALAMAZOO & SAGINAW RR (MI) 1918. One share, tan, #62. Eagle & shield. RN Issued to William K. Vanderbilt, Jr. and signed by him on the verso. (\$100-Up)**

The first stretch was operated by the New York Central, the second by the Michigan Central. This certificate was issued just after the Penn Central established a route into Detroit.
 Five "L" shaped punchmarks through the embossed corporate seal are the only cancellations on this excellent example.
